Preface	xi

EPIDEMIOLOGY

1	Clinical Epidemiology	3
2	The Epidemiology of Orthopaedic Practice	15
3	Quality Assurance/Quality Improvement	27
4	Practice Guidelines	35
5	Outcome Studies in Orthopaedic Surgery	45
6	Technology Assessment: A Case Study in Diagnostic Imaging	53

GENERAL KNOWLEDGE

7	Bone Metabolism and Metabolic Bone Disease	69
8	Arthritis	89
9	Muscle and Gait	107
10	Ligament Injury and Repair	119
11	Congenital Abnormalities	125
12	Multiple Trauma: Pathophysiology and Management	141
13	Infection	155
14	Musculoskeletal Neoplasms	169
15	Acute Pain Management	179
16	Perioperative Management	189
17	Anesthesia for Orthopaedic Surgery	201
18	Blood Transfusion Medicine: 1993	211
19	Microvascular Surgery	221
20	Lasers in Orthopaedics	227
21	Bone Grafts	233
22	Prostheses: Materials, Fixation, and Design	245
23	Amputations and Prosthetics	259

UPPER EXTREMITY

24	Shoulder: Pediatric	277
25	Shoulder: Trauma	285
26	Shoulder: Instability	297
27	Shoulder: Reconstruction	303
28	Elbow and Forearm: Trauma	319
29	Elbow: Reconstruction	335
30	Wrist and Hand: Congenital Anomalies and Pediatric Reconstruction	353
31	Wrist and Hand: Trauma	367
32	Wrist and Hand: Reconstruction	389

SPINE

33	Cervical Spine: Pediatric	405
----	---------------------------	-----

34	Cervical Spine: Trauma	413
35	Cervical Spine: Reconstruction	435
36	Thoracolumbar Spine: Pediatric	447
37	Thoracolumbar Spine: Trauma	461
38	Thoracolumbar Spine: Reconstruction	475
39	Lumbar Spine	491

LOWER EXTREMITY

40	Hip: Pediatric Aspects	505
41	Pelvis and Acetabulum: Trauma	515
42	Hip: Trauma	525
43	Hip: Adult Joint Reconstruction	539
44	Femur: Trauma	559
45	Knee and Leg: Pediatric Aspects	569
46	Knee and Leg: Bone Trauma	579
47	Knee and Leg: Soft-Tissue Trauma	593
48	Knee and Leg: Reconstruction	603
49	Ankle and Foot: Pediatric Aspects	625
50	Ankle and Foot: Trauma	635
51	Ankle and Foot: Reconstruction	645
	Index	655
