Contents

Contributors	xi
Preface	xix
1. Etiology of Failure: An Overview	1
<i>Jonathan P. Garino and Marvin E. Steinberg</i>	
 Section I. Basic Science	
2. Osteolysis and Aseptic Loosening: Pathogenesis	13
<i>William J. Maloney</i>	
3. Osteolysis and Aseptic Loosening: Clinical Picture	25
<i>Charles W. Cha, Raj K. Sinha, Arun S. Shanbhag, and Harry E. Rubash</i>	
4. Effect of Acetabular Design on Long-term Survivorship	39
<i>Jeffrey E. Schryver</i>	
5. Effect of Femoral Design on Long-term Survivorship	53
<i>J. Dennis Bobyn, Michael Tanzer, and Andrew H. Glassman</i>	
6. Effect of Material on Long-term Survivorship	73
<i>Jonathan Black and Joshua J. Jacobs</i>	

7. **Effect of Surgical Technique on Long-term Survivorship** 89
Thomas H. Mallory, Adolph V. Lombardi, Jr., and Stephen M. Herrington

Section II. Evaluating the Painful Total Hip

8. **Clinical Evaluation of the Symptomatic Total Hip Arthroplasty** 109
Paul N. Smith and Cecil H. Rorabeck
9. **Radiologic Evaluation** 121
Mari Schenk and Murray K. Dalinka
10. **When Not to Revise the Painful Total Hip Replacement** 141
Michael A. Mont and David S. Hungerford

Section III. Revising the Aseptic Total Hip

11. **Preoperative Planning for Revision Total Hip Arthroplasty** 151
Robert L. Barrack
12. **Surgical Exposures** 167
John J. Callaghan
13. **Component and Cement Removal** 193
William J. Hozack
14. **Selection of Acetabular Component** 209
Leo A. Whiteside
15. **Selection of Femoral Component** 221
John M. Cuckler
16. **Acetabular Bone Grafting: Structural Grafts** 233
Wayne G. Paprosky and Todd D. Sekundiak
17. **Acetabular Bone Grafting: Impacted Cancellous Allografts** 249
Tom J. J. H. Slooff, Jean W. M. Gardeniers, B. Willem Schreurs, and Pieter Buma
18. **Femoral Bone Grafting: Structural Grafts** 263
Carol R. Hutchison and Allan E. Gross
19. **Femoral Bone Grafting: Intramedullary Impaction Grafting** 281
Graham A. Gie and Robin S. M. Ling

20. **Acetabular Revision: Cemented** 299
Donald B. Longjohn, Lawrence D. Dorr, and Ye-Yeon Won
21. **Acetabular Revision: Uncemented** 321
Andrew H. Glassman
22. **Femoral Revision: Cemented** 339
Craig G. Mohler and Dennis K. Collis
23. **Femoral Revision: Uncemented** 351
C. Anderson Engh, Jr. and Charles A. Engh, Sr.
24. **Postoperative Management** 365
Norman A. Johanson
25. **Results** 373
Robert B. Bourne and H. A. Crawford

Section IV. Revising the Infected Total Hip

26. **Diagnosis and Evaluation** 393
Bassam A. Masri, Eduardo A. Salvati, and Clive P. Duncan
27. **Infecting Organisms and Antibiotics** 407
Amy L. Graziani, Janet M. Hines, Amy S. Morgan, Rob Roy MacGregor, and John L. Esterhai, Jr.
28. **Surgical Techniques** 419
Robert H. Fitzgerald, Jr.
29. **Results** 435
Robert H. Fitzgerald, Jr. and Marvin E. Steinberg

Section V. Complications

30. **Intraoperative Complications** 443
Ohannes A. Nercessian
31. **Controversies Associated with Thromboembolic Disease** 457
Paul A. Lotke
32. **Dislocation** 463
Daniel J. Berry
33. **Heterotopic Ossification** 483
David G. Lewallen
34. **Fractures of the Femur** 493
Donald S. Garbuz, Bassam A. Masri, and Clive P. Duncan

35. Trochanteric Nonunion and Abductor Compromise	505
<i>Russell G. Cohen and Aaron G. Rosenberg</i>	
Section VI. Special Considerations	
36. Resection Arthroplasty	517
<i>Marvin E. Steinberg and Jonathan P. Garino</i>	
37. Conversion of the Arthrodesed Hip to Total Hip Replacement	527
<i>Ohannes A. Nercessian</i>	
38. Conversion of Cup Arthroplasty and Femoral Endoprosthesis to Total Hip Arthroplasty	537
<i>Miguel E. Cabanela</i>	
39. Use of Custom Components and Robotics in Revision Total Hip Arthroplasty	545
<i>William L. Bargar, Bill Williamson, and Alan D. Kalvin</i>	
40. Blood Conservation and Replacement	557
<i>Carl L. Nelson and Jess H. Lonner</i>	
Subject Index	567
