

Skeletal Trauma: Basic Science, Management, and Reconstruction

Browner, Bruce D., MD, MHCM, FACS, FAOA

6^a.ed. 2020 Elsevier eds

Table of Contents

Videos 134

- 1.The History of Trauma Care
- 2.Global Burden of Musculoskeletal Injuries
- 3.The Challenges of Orthopaedic Trauma Care in the Developing World
- 4.Vascularity and Stability : The Pillars of Fracture Healing
- 5.Biology and Enhancement of Skeletal Repair
- 6.Biomechanics of Fractures
- 7.Closed Fracture Management
- 8.Principles and Complications of External Skeletal Fixation
- 9.Principles of Internal Fixation
- 10.Evaluation and Treatment of the Multi-Injured Trauma Patient
- 11.Initial Evaluation of the Spine in Trauma Patients
- 12.Damage Control Orthopaedic Surgery: A Strategy for the Orthopaedic Care of the Critically Injured Patient
- 13.Disaster Management
- 14.The Management of Acute and Perioperative Pain Associated With Trauma and Surgery

- 15.Chronic Pain Management
- 16.Evaluation and Treatment of Vascular Injuries
- 17.Compartment Syndromes
- 18.Open Fractures
- 19.Soft Tissue Reconstruction
- 20.Gunshot Wounds and Blast Injuries
- 21.Pathologic Fractures
- 22.Osteoporotic Fragility Fractures
- 23.Surgical Site Infection Prevention
- 24.Diagnosis and Treatment of Complications
- 25.Understanding and Treating Chronic Osteomyelitis
- 26.Nonunions : Evaluation and Treatment
- 27.Motorized Intramedullary Lengthening Nail for Limb Reconstruction
- 28.Psychological, Social, and Functional Manifestations of Orthopaedic Trauma and Traumatic Brain Injury *
- 29.Pathophysiology and Early Management of Spinal Cord Injury
- 30.Craniocervical Injuries : Atlas Fractures, Atlanto-Occipital Injuries, and Atlantoaxial Injuries
- 31.Craniocervical Injuries : C2 Fractures
- 32.Subaxial Cervical Spine Trauma
- 33.Thoracolumbar Trauma
- 34.Fractures in the Ankylosed Spine
- 35.Osteoporotic Spinal Fractures
- 36.Avoiding Complications in Spine Trauma Patients
- 37.Principles of Orthotic Management
- 38.Pelvic Ring Injuries
- 39.Surgical Treatment of Acetabular Fractures
- 40.Fractures and Dislocations of the Hand
- 41.Fractures and Dislocations of the Carpus
- 42.Fractures of the Distal Radius
- 43.Diaphyseal Fractures of the Forearm
- 44.Trauma to the Adult Elbow
- 45.Fractures of the Distal Humerus
- 46.Fractures of the Humeral Shaft
- 47.Proximal Humeral Fractures and Glenohumeral Dislocations
- 48.Fractures and Dislocations of the Clavicle

49.Scapula Fractures

50.Chest Wall Trauma : Rib and Sternum Fractures

51.Replantation

52.Hip Dislocations

53.Medical Management of the Patient With Hip Fracture

54.Intracapsular Hip Fractures

55.Intertrochanteric Hip Fractures

56.Posttraumatic Reconstruction of the Hip Joint

57.Subtrochanteric Fractures of the Femur

58.Femoral Shaft Fractures

59.Fractures of the Distal Femur

60.Patella Fractures and Extensor Mechanism Injuries

61.Dislocations and Soft Tissue Injuries of the Knee

62.Tibial Plateau Fractures

63.Malunions and Nonunions About the Knee

64.Tibial Shaft Fractures

65.Fractures of the Tibial Pilon

66.Malleolar Fractures and Soft Tissue Injuries of the Ankle

67.Foot Injuries

68.Posttraumatic Reconstruction of the Foot and Ankle

69.Periprosthetic Fractures of the Lower Extremity

70.Principles of Deformity Correction

71.Limb Salvage and Reconstruction

72.Amputations in Trauma

73.Articular Cartilage Reconstruction Using Osteochondral Allografts

74.The History of Fracture Treatment

75.Occupational Hazards in the Treatment of Orthopaedic Trauma

76.Medical Management of the Orthopaedic Trauma Patient

77.Surgical Site Infection Prevention

78.Physical Impairment Ratings for Fractures

79.Outcome Assessment in Orthopaedic Traumatology

80.Professionalism and the Economics of Orthopaedic Trauma Care

Cover of Skeletal Trauma: Basic Science, Management, and Reconstruction
