

Iulian Vasile Antoniac
Editor

Handbook of Bioceramics and Biocomposites

SpringerReference

Contents

Volume 1

Part I History and Materials Fundamentals	1
1 History of Development and Use of the Bioceramics and Biocomposites	3
Guy Daculsi	
2 Bioactive Glass Bone Grafts: History and Clinical Applications	23
Larry L. Hench	
3 Fundamental Properties of Bioceramics and Biocomposites	35
Maria Grazia Raucci, Daniela Giugliano, and Luigi Ambrosio	
4 Bioinert Ceramics: Zirconia and Alumina	59
Corrado Piconi and Alessandro Alan Porporati	
5 Calcium Phosphates	91
Sergey V. Dorozhkin	
6 Hydroxyapatite: From Nanocrystals to Hybrid Nanocomposites for Regenerative Medicine	119
Anna Tampieri, Michele Iafisco, Simone Sprio, Andrea Ruffini, Silvia Panseri, Monica Montesi, Alessio Adamiano, and Monica Sandri	
7 Cationic and Anionic Substitutions in Hydroxyapatite	145
Ilaria Cacciotti	
8 Carbonate Apatite Bone Replacement	213
Kunio Ishikawa	
9 Natural and Synthetic Polymers for Designing Composite Materials	233
Bogdan C. Simionescu and Daniela Ivanov	

10	Ceramic-Polymer Composites for Biomedical Applications	287
	Toshiki Miyazaki, Masakazu Kawashita, and Chikara Ohtsuki	
11	Collagen-Bioceramic Smart Composites	301
	Iulian Vasile Antoniac, Madalina Georgiana Albu, Aurora Antoniac, Laura Cristina Rusu, and Mihaela Violeta Ghica	
12	Bioactive Glass-Biopolymer Composites for Applications in Tissue Engineering	325
	Yaping Ding, Marina T. Souza, Wei Li, Dirk W. Schubert, Aldo R. Boccaccini, and Judith A. Roether	
13	Resin-Based Dental Composite Materials	357
	Hanadi Y. Marghalani	
14	Composite Hybrid Membrane Materials for Artificial Organs . . .	407
	Stefan Ioan Voicu and Marius Sandru	
15	Graphene-Bioceramic Composites	431
	Xingyi Xie and Marta Cerruti	
	Part II Materials Engineering and Biological Interactions: Biomimetic Strategies	469
16	Essential Requirements for Resorbable Bioceramic Development: Research, Manufacturing, and Preclinical Studies	471
	Guy Daculsi, Eric Aguado, and Thomas Miramond	
17	Biomimetic Strategies to Engineer Mineralized Human Tissues	503
	Sandra Pina, Joaquim Miguel Oliveira, and Rui L. Reis	
18	Biomimetics and Marine Materials in Drug Delivery and Tissue Engineering	521
	Andy H. Choi, Sophie Cazalbou, and Besim Ben-Nissan	
19	Silicate-Based Bioactive Composites for Tissue Regeneration	545
	Y.L. Zhou, Z.G. Huan, and J. Chang	
20	Biomimetic Customized Composite Scaffolds and Translational Models for the Bone Regenerative Medicine Using CAD-CAM Technology	585
	Isidoro Giorgio Lesci, Leonardo Ciocca, and Norberto Roveri	
21	In Vitro and In Vivo Evaluation of Composite Scaffolds for Bone Tissue Engineering	615
	Svetlana Schussler, Khadidiatou Guiro, and Treena Livingston Arinze	

Volume 2

Part III Materials Engineering and Biological Interactions: Surface Engineering and Interactions with Living Cells	637
22 Processing Technologies for Bioceramic Based Composites	639
Ipek Akin and Gultekin Goller	
23 Glass-Ceramics: Fundamental Aspects Regarding the Interaction with Proteins	667
C. Gruian, E. Vanea, H.-J. Steinhoff, and Simion Simon	
24 Bioceramic Coatings for Metallic Implants	703
Alina Vladescu, Maria A. Surmeneva, Cosmin M. Cotrut, Roman A. Surmenev, and Iulian Vasile Antoniac	
25 Sol-gel Nanocoatings of Bioceramics	735
B. Ben-Nissan, A.H. Choi, I.J. Macha, and S. Cazalbout	
26 Biomaterial Functionalized Surfaces for Reducing Bacterial Adhesion and Infection	757
Maria G. Katsikogianni, David J. Wood, and Yannis F. Missirlis	
27 Biocomposites used in Orthopedic Applications: Trends in Biocompatibility Assays	785
Martin J. Stoddart and Mauro Alini	
Part IV Clinical Performance in Bioresorbable and Load-Bearing Applications: Orthopedics	819
28 Perspective and Trends on Bioceramics in Joint Replacement ...	821
Corrado Piconi and Giulio Maccauro	
29 Evolution of Cementation Techniques and Bone Cements in Hip Arthroplasty	859
Marius Niculescu, Bogdan Lucian Solomon, George Viscopoleanu, and Iulian Vasile Antoniac	
30 Retrieval Analysis of Hip Prostheses	901
Iulian Vasile Antoniac, Florin Miculescu, Dan Laptoiu, Aurora Antoniac, Marius Niculescu, and Dan Grecu	
31 Clinical Limitations of the Biodegradable Implants Used in Arthroscopy	935
Rodica Marinescu and Iulian Vasile Antoniac	
32 Bioceramics and Biocomposites in Spine Surgery	967
Gianluca Vadalà, Fabrizio Russo, Luca Ambrosio, and Vincenzo Denaro	

Part V Clinical Performance in Bioresorbable and Load-Bearing Applications: Dentistry	989
33 Biofilm Formation on Implants and Prosthetic Dental Materials	991
Lia Rimondini, Andrea Cochis, Elena Varoni, Barbara Azzimonti, and Antonio Carrassi	
34 Guided Bone Regeneration for Dental Implants	1029
Mishel Weshler and Iulian Vasile Antoniac	
35 Performance of Dental Composites in Restorative Dentistry	1075
Diana Dudea, Camelia Alb, Bogdan Culic, and Florin Alb	
36 Clinical Evaluation of Disilicate and Zirconium in Dentistry	1115
Domenico Baldi, Jacopo Colombo, and Uli Hauschild	
37 Ceramic Veneers in Dental Esthetic Treatments	1129
Dan Pătroi, Teodor Trăistaru, and Sergiu-Alexandru Rădulescu	
38 Alveolar Augmentation Using Different Bone Substitutes	1159
Cena Dimova, Biljana Evrosimovska, Katerina Zlatanovska, and Julija Zarkova	
39 CAD-CAM Processing for All Ceramic Dental Restorations	1201
Alexandru Eugen Petre	
40 Failure Analysis of Dental Prosthesis	1217
Florin Miculescu, Lucian Toma Ciocan, Marian Miculescu, Andrei Berbecaru, Josep Oliva, and Raluca Monica Comăneanu	
Part VI Clinical Performance in Bioresorbable and Load-Bearing Applications: Other Applications	1247
41 Bioceramics and Composites for Orbital Implants: Current Trends and Clinical Performance	1249
Francesco Baino	
42 Current Implants Used in Cranioplasty	1275
Dumitru Mohan, Aurel Mohan, Iulian Vasile Antoniac, and Alexandru Vlad Ciurea	
43 Marine Biomaterials as Drug Delivery System for Osteoporosis and Bone Tissue Regeneration	1309
Joshua Chou and Jia Hao	
44 Antibacterial Potential of Nanobioceramics Used as Drug Carriers	1333
T.S. Sampath Kumar and K. Madhumathi	
Index	1375
