Foot and Ankle Instability

A Clinical Guide to Diagnosis and
Surgical Management

Contents

1	Introduction	1
2	Lateral Ankle Instability	3
2.1	Anatomy of the Lateral Ligaments of the Ankle	3
2.1.1	Anterior Talofibular Ligament	3
2.1.2	Calcaneofibular Ligament	4
2.1.3	Lateral Talocalcaneal Ligament	4
2.1.4	Posterior Talofibular Ligament	4
2.2	Biomechanics of Lateral Ankle Instability	5
2.2.1	Stabilizing Function	5
2.2.2	Mechanical Changes with Loss of Ligamentous Support	5
2.2.3	Rotational Instability	5
2.3	Conclusions and Clinical Implications	6
2.4	Injury Pattern of Lateral Ankle Ligaments	7
2.5	History and Clinical Presentation	9
2.6	Imaging	9
2.7	Arthroscopy	17
2.8	Conservative Treatment and Rehabilitation	21
2.8.1	Acute Ankle Sprains	21
2.8.2	Chronic Ankle Instability	21
2.8.3	Rehabilitation	21
2.9	Surgical Management of Lateral Ankle Instability	22
2.9.1	Acute Ankle Sprain	22
2.9.2	Avulsion Fractures of the Fibula	22
2.9.3	Chronic Lateral Ankle Instability	22
2.9.4	Concomitant Injuries and Pathologies	29
2.9.5	Postoperative Management	34
2.10	Outcome	39
2.11	Complications	51
2.12	Conclusions and Future Evolution	53
	References	58
3	Lateral Ankle Instability Including Chopart Joint	63
3.1	Anatomy of the Chopart Joint Ligaments	63
3.1.1	The Calcaneocuboid Joint	63
3.1.2	The Talocalcaneonavicular Joint	65
3.2	Biomechanics of the Chopart joint	65
3.3	Injuries to the Midtarsal Joints	65
3.3.1	Inversion Midtarsal Sprains	65
3.3.2	Eversion Midtarsal Sprains	66
3.3.3	High-Energy Midtarsal Injuries	67
3.4	History and Clinical Presentation	67
3.5	Imaging	67

3.6	Treatment	69
3.7	Outcome	70
3.8	Complications	75
3.9	Conclusions	79
	References	79
4	The Unstable Syndesmosis	81
4.1	Anatomy of Syndesmosis	81
4.1.1	Bony Configuration	81
4.1.2	The Syndesmotic Ligaments	82
4.2	Biomechanics of Syndesmotic Instability	84
4.3	Conclusions and Clinical Implications	86
4.4	Injury Mechanism	86
4.5	History and Clinical Findings	86
4.6	Imaging	87
4.6.1	Conclusion	91
4.7	Arthroscopy	92
4.7.1	Acute Injuries	93
4.7.2	Chronic Injuries	95
4.8	Conservative Treatment and Rehabilitation	100
4.8.1	Conservative Treatment	100
4.8.2	Rehabilitation	100
4.9	Surgical Management	100
4.9.1	Acute Injuries	100
4.9.2	Chronic Injuries	100
4.9.3	Postoperative Management	105
4.10	Outcome	105
4.11	Complications	113
4.12	Conclusions	122
	References	123
5	Medial Ankle Instability (Including Spring Ligament)	127
5.1	Anatomy of the Deltoid-Spring Ligament Complex	127
5.1.1	Superficial Components of the Deltoid Ligament	128
5.1.2	Deep Components of the Deltoid Ligament	128
5.1.3	The Spring Ligament Complex	129
5.2	Biomechanics of Medial Ankle Instability (Including Spring Ligament)	132
5.3	Conclusions and Clinical Implications	133
5.4	Injury Pattern of the Deltoid-Spring Ligament Complex and Classification	138
5.4.1	Type I-Injury (Table 5.1)	138
5.4.2	Type II-Injury (Table 5.1)	138
5.4.3	Type III-Injury (Table 5.1)	138
5.4.4	Type IV-Injury (Table 5.1)	142
5.5	Injury Mechanism	142
5.5.1	Injuries to the Superficial Deltoid Ligament	143
5.5.2	Injuries to the Deep Deltoid Ligament	143
5.5.3	Injuries to the Spring Ligament	143
5.6	Clinical Findings	143
5.7	Imaging	145
5.8	Arthroscopy	145
5.8.1	Acute Injury	147
5.8.2	Chronic Injury	147
5.9	Conservative Treatment and Rehabilitation	152
5.9.1	Type I and Type II-Injuries	157
5.9.2	Type III-Injuries	157
5.9.3	Type IV-Injuries	157

5.10	Surgical Management of Medial Ankle Instability	157
5.10.1	Proximal Tear of Deltoid Ligament (Type I-Injury)	158
5.10.2	Intermediate Tear of Deltoid Ligament (Type II-Injury)	158
5.10.3	Spring Ligament Tear (Type III-Injury)	163
5.10.4	Deep Deltoid Ligament Tear (Type IV-Injury)	166
5.10.5	Additional Procedures	183
5.10.6	Postoperative Management	197
5.11	Outcome	198
5.12	Complications	198
5.13	Conclusions and Future Evolution	205
	References	205
6	Deltoid Ligament Injuries in Ankle Fractures	209
6.1	Trauma Mechanism	209
6.2	Diagnosis	210
6.3	Imaging	211
6.4	Arthroscopy	213
6.5	Treatment	214
6.6	Outcome	221
6.7	Complications	223
6.8	Conclusions	231
